

How to access the Final Environmental Impact Statement (FEIS)

1. Access the title page, responsible parties, and contact information by clicking here.
2. To access the FEIS, click here for the Table of Contents, then access each of the sections by clicking once on the outlined text.
3. To access the Draft Environmental Impact Statement (DEIS), click here for the Table of Contents, then access each of the chapters by clicking once on the outlined text.
4. To access the Technical Reports, click on the links below to access the Table of Contents for each report:
 - Biological Resources
 - Water Resources
 - Cultural Resources
 - Human Resources

Notes:

- The Adobe Acrobat files contained on this CD-ROM are designed to open in **bookmark view** in Adobe Acrobat. A split screen should appear on the left side that contains a list of bookmarks, or links, to the major headings, tables, figures, and maps in each section or chapter. If it does not appear, switch to **bookmark view** from the **View** Menu.
- As you read each chapter of the DEIS, you can navigate to tables, figures, and main headings in the document by clicking on the bookmarks. To return to your place in the text, click on the back arrow in the button bar at the top of the screen. The introductory page for each chapter contains a link back to the table of contents so that you can navigate to the next chapter. The same process works for the FEIS and the Technical Reports.
- For some maps, large figures, and large tables, the bookmark will take you to a placeholder in the text. The placeholder is highlighted with an outline box. Click on the box to access the item. For example, in Chapter 1 of the DEIS, the bookmark will take you to a placeholder for “Map 1.3-1.” Simply click on the placeholder to view the map. To return to your place in the text, click on the back arrow in the button bar at the top of the screen.
- Chapter 3 of the DEIS is extremely large, and has been divided into each of its 19 major sub-sections so you can access the files more quickly. To maintain consistency with the page numbers in the printed version of the DEIS, the first page of many of these sections may be partially blank.
- An error message may appear that says a particular font, such as “symbol” or “Helvetica”, cannot be found. Click “Ok” when prompted. This message should not affect your viewing capabilities.
